

Task 4: Create onSubmit Client Script (Save Validation)

Activity 1: Create Client Script

1. **Navigate to Client Scripts:**

Go to System UI → Client Scripts in your ServiceNow instance.

2. **Click New** to create a new Client Script.

3. **Fill in the details:**

- **Name:** Prevent save if Assigned To missing – clearly indicates that the script prevents saving if the field is empty.
- **Table:** Incident – applies the script only to Incident records.
- **Type:** onSubmit – executes when the user tries to save the record.
- **Active:** true – ensures the script is enforced immediately.

4. **Paste the script** into the script editor section. This script should check if the **Assigned To** field is empty and prevent the record from saving if it is.

5. **Click Submit** to save the Client Script.

6. **Verify:** Try saving an Incident without filling the **Assigned To** field. The script should prevent the save and display a warning.

7. Paste the script:

```
function onSubmit() {  
  
    if (g_form.getValue('impact') == '1' &&  
        g_form.getValue('assigned_to') == "") {  
  
        g_form.showErrorBox(  
  
            'assigned_to',  
  
            'Assigned To is mandatory for High impact incidents.'        )  
    }  
}
```

);

return false;

}

return true;

}

8. Click **Submit**.

The screenshot shows the ServiceNow interface for configuring a Client Script. The left sidebar contains the navigation menu with 'Client Scripts' selected. The main area displays the configuration for a script named 'Prevent save if assigned to missing'. The script is set to run on the 'Incident' table, specifically on the 'onSubmit' event. The script code is as follows:

```
1 function onSubmit() {  
2   if (g_form.getValue('impact') == '1' &&  
3     g_form.getValue('assigned_to') == '') {  
4     g_form.showErrorBox(  
5       'assigned_to',  
6       'assigned_to is mandatory for High Impact Incidents.'  
7     );  
8     return false;  
9   }  
10  
11   return true;  
12 }  
13  
14
```

The 'Isolate script' checkbox is checked. The 'Update' and 'Delete' buttons are visible at the bottom.
